

In many Enterprises Libraries are distributed at multiple locations. Using a client server architecture it becomes difficult to share the resources of the all the Libraries across the enterprise.

LIBSUITE multi-location is a web enabled version and it is a server centric version also. So the main database remains on the server and the staff members access the information across the Libraries in the Enterprise and also the Library users can now view all Libraries.

The administrator who can setup the Libraries , Users rights , Circulation rules etc. and can control all the Libraries from a centralized location. Individual Libraries

- Web Enabled version hence works across the Enterprise.
- Email based reminders and notices.
- Customizable Setup.

Apart from the above mentioned features the following modules are also offered: Cataloguing This module deals with creation of catalogue or the database. You can add multiple copies, Inter Library Loan books etc. using this module.

- **Circulation:-** Issues / Returns of the documents, Reservations etc. are handled by this module. Operators , Membership Logic , Fine Logic, Statistics etc. is handled by this module.
- **Queries:-** Searching the information from the database based on title, author etc. is done by this module. Current Awareness Service (C.A.S.) , New Arrivals , Latest issues of the Journals etc. are handled by this module..
- **Serial Control:-** Periodicals / Journals are handled by this module. Managing the subscription renewals, Missing Issues, Bindery Management is handled under this module. .
- **Acquisition:-** Procurement of books and other documents is handled by this module.
- **Setup:-** This module helps in customizing the needs of individual Libraries and also to define the Authority files (Masters)..
- **House Keeping:-** Helps in organizing the data, deleting irrelevant data, stock taking etc.
- **Software and Consumables:-** The Software Licenses and consumables like blank media , CDs etc . can be managed very effectively even at a project level.
