

LIBONWEB - A simple service to make your Library OPAC available on web.

Librarians take tremendous efforts to create computerized bibliographic records. But access to this information remains restricted because this data is available only through some machines in the Library.

Though the Librarians want to make their data available on the web - costs, technology, resources make it very difficult for Librarians to offer these services on the web.

With our experience and expertise of offering our services to Libraries we have decided to take an initiative in offering LIBONWEB.

LIBONWEB is a powerful yet simple service, which helps you in making available your Library data on the web, and the best part is, it is very cost effective.

This site can be made available as a stand-alone site or a link can be made available on the main page of the organization to point to this site.

Following are the pre-requisites for LIBONWEB services:

- You should be using any of the LiBSUITE packages like Educational, Enterprise etc.
- A site would be created with/without your name eg. [www.imdrlibrary.com](http://www.imdrlibrary.com) (pl. note many names might be already be registered hence a name has to be chosen from the available names)
- We will create a website for you with the template provided by us. Any customization to the templates available will be charged additionally.
- We will provide a synchronization program for uploading the records on the web.

Details about the website template for the Library site:

**Search Data:**

This facility will allow you to search your Bibliographic data. It will offer searches in all the fields and also in individual fields like Title, Author and Keywords etc. A Cut off period can also be specified.

**New Arrivals:**

This option will display the latest information uploaded in the database.

**About our Library:**

This option will have one or two paragraph about the Library. It would indicate the Location, collection and similar details about the Library.

**Library Rules and Regulation:**

Various rules and regulations of the Library would be displayed here. It would also indicate the membership criteria and the privileges of to the member.

**Library Timings:**

The Library Timings are shown here.

**Library Staff:**

This shows a small introduction to Library staff and the photographs of the Library staff is also displayed here.

**From the Librarians Desk:**

This is the message that the Librarian wants to display to the members of the Library.

**Contact Us:**

Postal address, phone no and email.

The option Search & New Arrival can be protected via password and made available only to the members however world over the trend is to make the library information available free without any restrictions like the password.
